TIPS & TRICKS

REMEMBER TO ASK YOUR PARENTS FOR HELP!

- Print out as many pages as you want and build your own fleet.
- Make a collage of spaceship parts to make your own special ships.
- Trace the drawings so you can learn how to draw your own spaceships.
- Paste pictures, sketches, or planets in the screen to change displays.
- Collect all kinds of boxes to make all kinds of control units.

FUN STUFF TO USE!

• Print out on magnetic sheets. Stick them on the refrigerator or other metal surfaces.

• Use a Full Sheet Labels so your control panels can stick cardboard.

• Print on different color construction paper.

• Use a Sharpie Metallic pen for a metal look!
